Authorization for this examiner's amendment was given in a telephone interview with Edward Weller on October 18, 2004.

***Examiner's Statement(s) of Reasons for Allowance***

3. The following is an examiner's statement of reasons for allowance:

- (1) See the reasons set forth in paragraph #11 of the Office action mailed on March 26, 2004. With regard to these reasons previously set forth, the examiner wishes to clarify that the step of pouring is not necessary for patentability of the instant claims. Specifically, since there is no evidence or suggestion that any of the prior art forms are capable serving the claimed functions (e.g., elongating and subsequent shrinking; and protecting against alkalinity in the concrete), both of the methods of manufacturing (i.e., without a pouring step) and of using (i.e., with a pouring step) the applicant's claimed stay-in-place form would be allowable over the prior art of record. In this regard, see also the reasons set forth in the 5<sup>th</sup> paragraph of page 8 of the Applicant's response filed on October 5, 2004.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
